**Additional Fuel Transportation Charge:**

A Fuel-Related Cost Price Adjustment (Surcharge) will apply on transportation charges as provided herein.

1. On the first Monday of each calendar month, the "national U.S. average" price per gallon of diesel fuel will be determined based on the price stated by the U.S. Department of Energy (DOE), Energy Information Administration's (EIA) survey of "Retail On-Highway Diesel Prices." This price will be obtained by calling the DOE Fuel Hot Line at 202-586-6966 or via the DOE Internet web site at [www.eia.doe.gov](http://www.eia.doe.gov).
2. If the first Monday of the calendar month is a Federal holiday, the price will be determined based on the stated DOE price available on the next subsequent business day (Tuesday).
3. The DOE fuel price obtained will then be indexed based on the fuel price/adjustment factor matrix set forth in this item to determine the Fuel Cost Price Adjustment that will become applicable on the fifteenth (15<sup>th</sup>) day of the same month. The adjustment determined will apply for shipments loaded beginning on the 15<sup>th</sup> day of the month and remain in effect through the 14<sup>th</sup> day of the following month starting from the effective date of this item.

For example, if the reported price of self-service diesel fuel determined on Monday, June 4<sup>th</sup> is \$2.239 per gallon, a two (2.0%) percent Fuel Cost Price Adjustment will apply for shipments loaded as of June 15<sup>th</sup> through July 14<sup>th</sup>. Then, if the reported price of diesel fuel on Monday, July 2<sup>nd</sup> increases to \$2.269 per gallon, a three (3.0%) percent Fuel Cost Price Adjustment will apply for shipments loaded as of July 15<sup>th</sup> through August 14<sup>th</sup>.

4. Notwithstanding any other provisions of the tariff, the Fuel Cost Adjustment WILL APPLY to the transportation charges applicable on SIT shipments when such shipments are delivered to or removed from the storage-in-transit location during the period that a Fuel Surcharge is in effect.
